Sensesational Science Summer Institute

THE NEXT GENERATION

We're excited to launch The Next Generation of SENSEsational Science for 2023! Teachers from across the Tulsa metro will have the opportunity to learn new ways to engage students in hands-on STEM while meeting academic standards. Teachers will also build community relationships with other educators and STEM partners.

When:

- Commitment meeting in April/May + 3 days in-person in June
- Optional PLC (Professional Learning Community) follow-up in fall and spring

Choose your subject area (may participate in multiple cohorts):

- Engineering & Technology Cohort - June 6-8, from 9:00am-4:00pm each day
- Life Science Cohort - June 7-9, from 9:00am-4:00pm each day
- Earth & Space Science Cohort - June 12-14, from 9:00am-4:00pm each day

Who: Any PK-12 teacher or pre-service teacher in the Tulsa Metro area, including SENSE alumni.

Where: All workshop sessions will be held in the Tulsa metro area, with one day in Stillwater for those participating in the Earth & Space Science cohort. Participants must provide their own transportation. Teachers will receive a gas card to help subsidize the cost of fuel.

Cost: **Free** to participate! All teachers will receive:

- $ 300 stipend
- + a gas card
- + materials for your classroom
