

In collaboration with

The United States Naval Academy STEM Center
presents

STEM Educator Training in Project Based Learning

February 9, 2017 (8 AM to 4 PM) Tulsa Central Library

Discover practical & engaging methodology for teaching science, technology, engineering & math through project based learning.

- Dive in Deep: Hands-on activities to investigate physical properties of water
- Soar High: Probe into principles of flight
- Wave Engineering: Explore sound, light and ocean waves
- Sensing Your Surroundings: Create sensors to examine the environment
- Engineering Design Challenge: Test your skills
