

*Tulsa Regional STEM Alliance*

# STEM CAFE

February 14, 2018 7:30 - 8:15am  
Rogers College Jr. & Sr. High School  
Lecture Hall A

Presenting

## Dr. Bryan Tapp

**The University of Tulsa  
Structural Geology, Geomechanics,  
GIS**

If you have seen a news report on OK earthquakes, good chance you have seen Dr. Tapp. Take this opportunity to meet the accomplished, 36 year veteran professor & former Chair of Geosciences at TU to discuss his work with the Governor's Coordinating Council on Seismic Activity. He will demonstrate a Raspberry Shake seismometer as well as discuss the unique geology of OK and what the future may hold for us regarding earthquakes.

Join us for donuts, coffee  
and a STEMtastic way to  
start your day.

Can't join us in person? Join via Facebook LIVE!
