

# Exponential Growth

Math Professional Development

Join the Tulsa Regional STEM Alliance and Northeastern State University for a training for elementary math educators!

In this professional development experience, teachers will discover ways to empower students to experience mathematical freedom while putting down deep roots in a growth mindset approach to mathematics.

Come join in the fun as we plan for opportunities to:

- Collaboratively explore ways to increase student learning and engagement
- Enhance teacher content knowledge with connections to the Oklahoma Academic Standards for Mathematics Grades 3 - 5
- Expand teachers' instructional strategy toolkits

## Apply

Register for this PD at

[TulsaSTEM.org/  
exponential-growth-pd](https://TulsaSTEM.org/exponential-growth-pd)

## Where

Northeastern State University  
Broken Arrow Campus
