

# Tulsa Regional STEM Alliance

# Spring Events

**Jan. 26**

K-12 Students from all over the Tulsa area are invited to build remote-controlled underwater robots.

**Feb. 22**

A day for high school seniors who are committing to study engineering in college to come together to sign letters of intent.

**March 8**

An all-day girls' event designed to inspire the next generation of female STEM professionals.

**March 30**

K-12 students build boats using only cardboard & duct tape, which they will then race across the length of a pool.

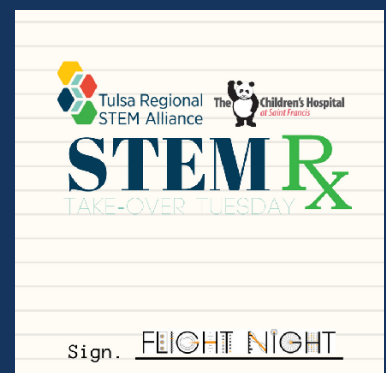

**May 3**

This multi-state festival engages upper elementary students in STEM and physical activity while fostering creativity in history, the arts and aviation.

**Second Tuesdays**

Informal opportunities to learn about STEM before school.

TRSA is taking over the St. Francis Children's Hospital with STEM fun!
