

Tulsa Externships for Teachers

Teacher Externships provide educators with the experience to steer students to science, technology, engineering and mathematics (STEM)-related careers. Teachers work side-by-side with local businesses and organizations in or near the community they serve. Externship business partners share a commitment to STEM education in their communities and the capacity to provide a teacher with meaningful projects that can be used to inspire students to pursue STEM careers in the Tulsa area.

Support local educators by hosting a teacher for a summer externship.

ROLE OF BUSINESS HOST

- Build a six-week hands-on, minds-on experience by which teacher externs contribute to company operations by applying STEM skills
- Aid teacher extern in documenting his/her experience and reflections
- Externships are a launch point for permanent business-school partnerships
- Hosts will contract with the extern and pay the extern's compensation - \$5,000 over 6 weeks

ROLE OF TEACHER EXTERN

- Contribute talents, knowledge and skills to business operations
- Document externship experiences and transform them into engaging experiences
