# Code.org Fundamentals

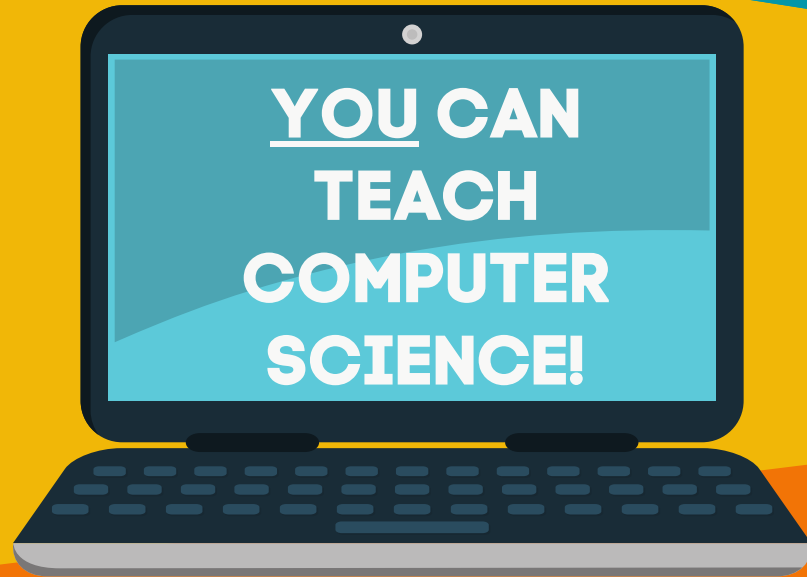

**Join us for a FREE professional development  
workshop for K-5 elementary teachers**

“ The best Code.org training I have attended! I love that  
the focus was beyond 'how-to.' ”  
-K. James, Claremore Elementary Teacher

## Benefits:

- Gain new teaching strategies and confidence
- Experience curriculum loved by both students and teachers
- Get peer support through a participant-centric approach
- Learn and navigate the FREE Code.org curriculum
- Join and learn from an active community of CS educators
- Get activities and ideas to implement tomorrow
- Be ready to teach CS ED Week in December
- Prepare for state legislation that requires CS to be taught in OK schools in 2024-2025
- Materials, lunch, and substitute reimbursement provided
