TEACHERS: GET READY FOR
COMPUTER SCIENCE EDUCATION WEEK
DEC 4-10, 2023

Tulsa Regional STEM Alliance
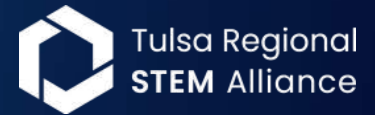

Computer Science Education Week is an annual call to action to inspire students to learn computer science, advocate for equity, and celebrate their contributions to the field. It is held each December during Admiral Grace Hopper's birthday, an innovator in CS who is credited with popularizing the term "debugging" when she removed an actual moth from a computer in 1947.

Tulsa Regional STEM Alliance wants to help you and your students celebrate with these resources and upcoming opportunities:

Resources

Teach coding with materials you can borrow from TRSA's STEM Shoppe.

Request a CS- focused STEM in a Bag activity kit.

Request a CSEdWeek Classroom kit with free books and materials.

TRSA's online Coding Camp helps students explore different aspects of CS and develop their creative problem-solving skills.

Download free posters and access additional resources.

Funding

Want to host an Hour of Code or a CS-focused family event? You can apply for funding to design your own CS experience through TRSA's STEM Funding Center. Deadline Nov 17 with notifications by Dec 15.

Professional Development

Nov 10: Code.org Fundamentals for K-5 Educators

Dec 2: STEM Shoppe Learning Series Robotics. Learn how to code with Micro:bits, Ozobots, Spheros and more!
